

## Polipropileno virvė 3-gijų

### Produkto informacija

**General:** Fibre rope of polypropylene for all different kinds of applications like: tarpaulin- and towing-ropes, lifting slings, ropes for the fishing industry, cargo nets, rope ladders, and more. The structure of the fibre rope makes it non-sliding in knots and splices.

**Design:** Spliced fibre.

**Specific gravity:** 0,91 (floats).

**Melting point:** Approx. 165°C.

**Elongation:** Approx. 30%.

**Strength wet/dry:** 100%

**Shock Absorption:** Very Good

**Water Absorption:** None

**Abrasion Resistance:** Good

**Standard:** EN ISO 1346

**Žymėjimas:** Atitinka standartą

**Standartas:** EN ISO 1346
